

InfoMap Quick Start Guide

1. Disable or turn **off** pop-up **blockers** on your browser
 - Internet Explorer: Tools > Pop-up Blocker > Turn off pop-up blocker
 - Firefox: click either the **Options/Preferences** button in the information bar or the icon in the status bar > Allow pop-ups
2. Click the '**Map Layers**' folders to view map data layers, and check a box to turn on a layer. If the layer checkbox is greyed out, click the **+** displayed to the right of the layer name to display the layer.
3. To make a layer active, click on the **i** icon to the left of a layer name. Making a layer active will allow you to use the '**Legend**' tab or the '**Identify**' or '**Select All Layer Attributes**' tools.
4. Use the '**Identify Visible**' tool to display a list of all layers turned on and their attributes, whether the layers are active or not.
5. If layers are not displayed on the right side of the InfoMap viewer, click on the '**Layers**' tab to display map layer folders.
6. To search for an address or intersection select '**Street Address**' or "**Intersection**" from the '**Find**' tab. If more than one option is available, click on the desired location at the far right.
7. Select '**Points of Interest**' from the '**Find**' tab to search for parks, libraries, schools and more.
8. To label features, click on the icon (which looks like a price tag) to the right of a layer name to turn labels on or off.
9. To see tool names, mouse/hover over the tools.
10. To use tools, typically you will click on a tool, then click on the map window. For example, click on the '**Pan**' button (which looks like a hand) then click on your map while holding down the left mouse button to drag or move the map around.
11. To zoom in on a map location, click the '**Zoom In**' tool and then click the map location that you want to zoom in on, or click and hold the left mouse button to drag a box around the area that you want to zoom in on.
12. For more information click on the '**Hints**' folder (bottom right), the '**Help**' tab, or click on the '**Feedback**' link (top right).
