

Holden AvenueFinal Engineering Design

Orange County Chairman Richard T. Crotty

February 2008

District 6 Commissioner Tiffany Moore Russell

Project Summary

During the Preliminary Engineering Phase of this project, four (4) Public Meetings and an Orange County Local Planning Agency Workshop and Public Hearing were held. A newsletter was also published and distributed to local residents providing them with the project status. Numerous neighborhood and small group meetings were also held with home and business owners. The purpose of these meetings was to keep the public informed of the project progress, as well as presenting recommended improvements and soliciting public opinion. The final design recom-

mendations were presented to the Orange County Board of County Commissioners (BCC) at a Public Hearing held on November 17, 2001. The Board voted and approved the project to proceed through design, right-of-way and construction.

Upcoming Work

Work is nearly completed on the next phase consisting of final engineering design plans for a four lane divided urban roadway with sidewalks, bicycle lanes, instersection improvements, and drainage improvements. This phase of the project is anticipated to be completed by June 2008. Construction is expected to begin by April 2010. The Web site listed below can provide residents with the current status of the project.

Get Involved

Orange County is interested in your ideas and opinions on the recommended improvements. You can also visit the project Web site at www.OrangeCountyfl.net. Click on "Family and Community", then "Traffic" then "Transportation Projects" and finally, "Holden Avenue" underneath "Projects Under Design".
