**Subject: Septic to Sewer Ballot Results for Bent Oak, Carol Woods,
Wekiva Ridge, Sweetaire of Wekiva, Bentley Woods, and
Silver Rose Subdivisions**

Dear Wekiwa Springs Resident:

Congratulations! Your community has voted in support of the Wekiwa Springs Septic Tank Retrofit Project. This wastewater project will convert homes from septic tanks to an Orange County central sewer system, improving the water quality of the springs and benefitting the ecological system.

The final decision regarding this project rests with the Orange County Board of County Commissioners. Balloting results will be discussed at a public hearing tentatively planned for Tuesday, May 2, 2023, which all affected property owners will receive details of by mail. Once approved by the Board, residents should expect to see workers on-site beginning this summer to perform data collection and analysis.

If you have any questions about this project, please contact me at 407-254-9694 or David.Arms@ocfl.net.

Orange County Utilities is excited about this opportunity, and we appreciate the community's tremendous support!

Sincerely,

A handwritten signature in blue ink, appearing to read "David Arms", is written over a faint, light blue circular stamp.

David Arms, P.E.
