### TERMS OF ACCEPTED APPLICATION

Responsibilities:

1. Orange County Utilities will obtain proper plumbing permits and ensure the Orange County water system connection complies with all requirements of the plumbing codes.
2. Orange County Utilities will install a backflow prevention assembly on the irrigation system to ensure protection of the drinking water supply.
3. Customer must comply with all local and state landscape irrigation regulations and restrictions.
4. Customer must ensure irrigation system is designed not to exceed 10 gallons per minute and 60 minutes per zone.
5. After inspection by a county plumbing inspector, the customer or contractor will place the irrigation system into service.
