Summary of proposed ordinance (F.S. § 125.66(3)(a)1.):
The proposed ordinance amends Chapter 35, Articles VII and VIII, and Chapter 11, Article III of the Orange County Code to establish a coordinated regulatory framework for the operation of electric bicycles, motorized scooters, and other micromobility devices. The ordinance incorporates applicable state-law requirements and establishes local operating, parking, enforcement, and penalty provisions. Violations of state-law requirements will be enforced under applicable state law. Violations of the County’s operating and parking requirements will constitute non-criminal civil infractions subject to the Orange County Code Enforcement Citation Program. The ordinance generally applies to operators of individually owned micromobility devices and operators of micromobility devices owned by micromobility device companies in unincorporated and incorporated Orange County, except where a municipality maintains an ordinance addressing the same subject matter, activity, or conduct. The public purpose of the ordinance is to protect the health, safety, and welfare of residents and visitors by reducing conflicts and unsafe conduct involving pedestrians, motorists, micromobility-device operators, and other users of public rights-of-way, while providing consistent rules for the lawful operation and parking of micromobility devices.
