

SPRING 2025

ORANGE COUNTY CITIZENS' REVIEW PANEL
FUND DISTRIBUTION PROCESS

PRELIMINARY RESULTS

Scoring Explanation for CRP Fund Distribution Process

Each proposal submitted through the Citizens' Review Panel (CRP) Fund Distribution Process is evaluated based on two primary components: the Agency Application and the Program Application. Together, these components total a maximum of 100 points.

1. Agency Application (Total: 35 Points)

Panel members assess the agency's overall capacity and financial health using the following sections:

- **Section A – Agency Information (20 points):** Evaluates the agency's history, mission, leadership, and experience in delivering human services.
- **Section B – Agency Budget Information (10 points):** Reviews the agency's financial stability, sustainability, and fiscal practices.
- **Section C – Organization and Completeness (5 points):** Assesses the clarity, organization, and completeness of the application materials.

2. Program Application (Total: 65 Points)

This section evaluates the specific program or service being proposed for funding:

- **Section A – Program/RFP Overview (48 points):** Examines the program's alignment with RFP priorities, design, service population, and anticipated impact.
- **Section B – Performance Measures (7 points):** Reviews the definition, tracking, and evaluation of measurable outcomes.
- **Section C – Program Budget (10 points):** Assesses the appropriateness, clarity, and justification of the program-specific budget.

Scoring Methodology

- Panel members use standardized evaluation tools and scoring rubrics to assess each section of the application.
- The final agency score is the average score from all reviewers within the assigned subpanel. If an agency submitted multiple RFPs reviewed by separate subpanels, the final agency score is the average of all applicable subpanel scores.
- The final program score is determined by averaging the program application scores given by each panelist in the assigned subpanel.
- The total score for each proposal is the combined score of the agency and program applications (maximum of 100 points).

Funding Eligibility Thresholds

To be considered for funding, proposals must meet the following minimum overall score requirements:

- **General CRP (CSF, TCRP, CSTF):** Minimum score of **70%**
- **Small-Scale CRP and Innovation Categories:** Minimum score of **60%**

Funding Determinations

Eligible proposals are awarded in rank order based on total score. Funding recommendations are preliminary, pending any Agency appeals, and are subject to change. They are also contingent upon the availability of funding as approved by the Orange County Board of County Commissioners (BCC).

Scoring Explanation for Youth Violence Prevention Mini Grants

Proposals were evaluated in the order of submission, determined by the recorded date and time of receipt. In order to be considered for funding, each agency was required to receive a recommendation from at least two of the three assigned Mini-Grant reviewers. Agencies meeting this requirement were selected for award consideration in order of eligibility, until all available funds were fully allocated.
