FINAL DESIGN UNDERWAY

Orange County has initiated the final design phase for the widening of Reams Road from south of Summerlake Park Boulevard to Taborfield Avenue within Horizon West in southwest Orange County, a distance of 2.8 miles. This phase of the project includes the roadway engineering and preparation of final construction plans and documents. The project will be designed in general accordance with the Reams Road Roadway Conceptual Analysis completed in 2018. The construction plans are scheduled to be completed in early 2022. The project team will issue a series of newsletters and the website will be updated as necessary.

PROJECT DETAILS

The proposed design includes two 11-foot-wide travel lanes in each direction separated by a raised median. A 5-foot-wide sidewalk is located on the south side of the roadway, and a 14-foot-wide multi-use trail is planned along the north side of the roadway. The project also plans to incorporate drainage improvements, lighting, landscaping, and a wildlife crossing. Right-of-way acquisition will be needed for the roadway and stormwater improvements.
